Additional Metric AccuThread 856[®] Thread Mills Now Available

AMEC is pleased to announce the addition of two new AccuThread 856 Thread Mills as stocked standards. The new items expand our offering of metric thread forms to include M4 x 0.70 and M6 x 0.50 threads.

All AccuThread 856 items offer 25 - 50% increases in tool life, strength and rigidity over the competition. This is possible because of our exclusive AM210[®] coating, thicker cores, and helical flutes.

Our online programming application makes threading easy. Simply log on to our website, www.alliedmachine.com, to generate a CNC subroutine.

Item number, detail and pricing information:

AccuThread 856 Item Number	Min. Thread Size	Pitch	Flutes	Max. Cutter Dia.	Shank Dia.	Length of Cut	OAL
TMMK0400-070M	M4	0.70	3	2.9	3.0	8.0	39
TMMK0600-050M	M6	0.50	3	4.6	6.0	12.0	58

These items will be added to the AT856 catalog and pricelist, which will be available for PDF download from our website, www.alliedmachine.com, on February 10, 2012.
