Allied – OEM Tooling Certificate Program

Available May 25, 2009

Allied Machine & Engineering Corp. is pleased to announce the OEM Tooling Certificate Program. Allied is making a conscious effort to support the needs of the OEM Machine Tool Builders and Distributors. We have developed an OEM program to support the OEM needs in turn-keys, test tooling, open houses, training programs, trade show tooling, and a standard product tooling certificate.

The OEM Tooling Certificate enables OEM accounts to supply end-users with Allied Machine & Engineering Corps. standard world class hole making product lines. Please contact our Customer Service Department for your tooling certificate discount. The products available on the tooling certificate are as follows:

- Original T-A[®] & GEN2 T-A[®] - Drilling Systems
 - Structural Steel Drilling Products
- ASC 320[®] - Solid Carbide Drilling Line
- GEN3SYS[®] - High Penetration Drilling System
- ALVAN[®] - Monobloc and Ring Style Expandable Reamers
- AccuThread 856[®] - Solid Carbide and Indexable Threadmills
- AccuPort 432[®] - Hydraulic Port Tools
- EcoCut[®] - Multi-function Lathe Tools
- Opening Drill[®] & Revolution Drill[®] - Adjustable IC Drills
- BT-A - Single Tube BTA Drill Heads

Please refer to below for the OEM-Tooling Certificate redemption procedure:

- The OEM account will assess the List Price value of the certificate and contact the local Allied Territory Manager or OEM Sales Manager.
- Tooling orders will be placed directly with Allied and the OEM account will be invoiced for the tooling order. The OEM account will be invoiced after the tooling has shipped.
- The tooling will be dropped shipped to the respective end-user unless otherwise notified prior to shipping.
- The Tooling Certificates are considered to be a one time redeemable opportunity. The certificate will expire after initial tooling has been delivered.

In addition to our standard product offering, we have the capability to customize solutions to accommodate your special applications. All special products will reflect standard OEM Builder/Distributor discount schedules. We have the capability to supply

special inserts in as little as 10 working days and special holders are as little 15-20 working days (depending on complexity).

If you need assistance with the Allied – OEM Tooling Certificate or any aspects of the OEM program please contact your local Territory Manager or our OEM Sales Manager.

An electronic version of the certificate is available in a PDF format on our website www.alliedmachine.com, under the "support" banner (literature). When reordering the Allied exclusive OEM Tooling Certificate, please use item number DEM-ToolCertif.

Thank you,

Andrew S. Carr
