Monobloc & Ring Style Inch & Metric

Range:
0.2283" - 7.8972"
(5.8mm - 200.00mm)

ALVAN[®] Reamers are available with:
carbide, cermet, PCO or CBN cutting edges

In addition to producing close tolerances and dimensional accuracy of machined holes, this high performance reaming product provides a lower cost per hole through its high penetration rates. This makes it an ideal choice for finishing holes in a production environment. It can also prove to be an alternative to finish boring by providing more consistent hole sizes and lower cycle times.
